Soft1 Knowledge Base  
Get Started

softone | Training Services

## Leverage your experience

Expand even more the value of your Soft1 solution, with SoftOnes' advanced training services. Improve your people competence, confidence and efficiency through SoftOne's comprehensive suite of training. Get the most out of Soft1!

SoftOnes' advanced training method speeds up the learning process, lessens knowledge gaps and ensures that your people retain the information they need to minimize time spent doing everyday tasks.

SoftOne Support team includes highly skilled executives who implement flexible programs that deliver the expert training you need to maximize your software investment. We offer on and off site training courses, classroom and distance learning sessions, e-learning education, train-the-trainer services, follow-up knowledge assessments and web access to the Soft1 Knowledge Base.

Our methodology provides the ability to easily create user training specifics to your processes, track user progress and performance and identify knowledge levels of trainees.

The services include:

- On-Site & remote training
- Distance learning
- E-learning seminars
- Soft1 knowledge base
- Usage documentation
- Technical documentation

## Soft1 tips & tricks

Learn More. Work Better.

### Labels print - Stock Documents

Gather all required information regarding your stock items, such as prices, discounts, stock keeping units (SKUs) in a single Document, to facilitate your daily business operations.

Simply, select the stock items, by using a Soft1 Stock Items List, right-click and create the **Labels Document**. Set the number of labels (for example, based on Warehouse /Branch Balance), and either print them or save the file for future use.
